Kankakee County's Jerome Combs Detention Center houses on average 150 ICE detainees per day. Now the Sheriff wants to expand 32,000 additional square feet AND improve the Kankakee airport to expedite deportations, making Kankakee one of the largest ICE detention centers in the state. This rally will inform the community and hold officials accountable.

Kankakee County should not build financial solvency on the backs of those suffering from today's aggressive ICE tactics. Join us to end ICE detentions in Kankakee County!
